DETAILED ACTION

Claim Objections

1. Claims 2-6 are objected to because of the following informalities: Since claim 1 has been cancelled, claims 2-6 can't depend on claim 1. Appropriate correction is required.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 2-9 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 2-9 of prior U.S. Patent No. 6,157,848. This is a double patenting rejection.

Art Unit: 2683

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 10-19 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 of copending Application No. 08/914,440. Although the conflicting claims are not identical, they are not patentably distinct from each other because the second command type with a keyword for a previously stored telephone number is merely a modification of a keyword associated with a destination number to be dialed at the non-wireline telecommunications switching office (claims 1,5). Furthermore claims 10-19 are corresponding method claims to the apparatus claims of the patent.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Marui et al. (4,961,212).

Regarding claim 20, Marui discloses a voice recognizing telephone apparatus, comprising: receiving a voice command at a voice recognizing circuit and determining the voice command is a call command (column 15 lines 37-41); collecting an identifier associated with the call command and associated the identifier with a telephone number previously stored in a memory (column 14 lines 18-22, column 16 lines 47-53); and retrieving the telephone number (column 16 line 55).

Regarding claim 21, the identifier is name (column 14 line 19).

Regarding claim 22, the identifier is a relationship modifier (column 14 lines 8-18).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Marui et al. (4,961,212) in view of Shimada (5,222,121).

Regarding claim 23, Marui failed to disclose the step of verifying.

Art Unit: 2683

Shimada discloses a voice recognition unit having a step of verifying mobile users (abstract). Therefore, it would have been obvious to one skilled in the art at the time the invention was made to have Marui, modified by Shimada in order to prevent a wrong connection.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Simon Nguyen whose telephone number is (703) 308-1116. The examiner can normally be reached on Monday-Friday from 7:00 AM to 4:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Trost, can be reached on (703) 308-5318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 306-0377.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks
